ABOUT **GULLY** CLINIC

Our Vision : Har Gully Healthy

Our Mission : Early Diagnosis | Treatment Adherence | Patient Advocacy

Gully Clinic is an attempt to “Make Har Gully Healthy”, a unique doctor-run healthcare initiative centered around the concept of preventive healthcare and patient empowerment.

Our Pilot Project :

Gully Clinic

A community health centre that provides a holistic space for interaction of patients, doctors and community health workers/volunteers.

Gully Meets

Regular patient advocacy groups designed around most pressing healthcare issues in Mumbai. 1 hour, twice a month is all it takes to have ears to the ground to reinforce community health practices.

Our footprint in Mumbai :

2nd Jan 2021

Gully Clinic Inaugural : Colaba, Geeta Nagar, Mumbai 400 020

2nd August 2021

1st Partner Clinic : Mangal Stree Samaj , Churchgate , Mumbai 400 005

Upcoming Clinic : BR Ambedkar Nagar, Sion Koliwada, Mumbai 400 037

Working Model :

5 Day-a-week OPD run by trained healthcare professionals (MBBS, MD, MS)

Timing : 7:30-9:30 PM

Twice a month : patient advocacy group meeting

Financial Model for urban slums :

Patient pays to make a membership card with the clinic with validity of 3 months and 3 visits included.

This was adopted to ensure regular follow-up of the patient.

Competitive pricing was kept comparable to local “quacks” who have a strong foothold in slums and government healthcare centres (charge Rs. 20 per visit)

Doctors are engaged on voluntary basis with commitment of 2 hours OPD 2 times a week

HEALTHY

ABOUT GULLY MEETS

The growing inequality and disparity of health program costs inspired us to craft grassroots-relevant patient advocacy groups.

Mental Wellness

Our in-house mental health awareness program called : Senteameter , that combines love for tea and chit-chat with therapy
